GIFT TOKENS

Bulbs make a very suitable present where other articles fail. We supply Gift Tokens to any value desired and they are in the form of an attractive card to enable recipients to select Bulbs from our Catalog to the specified value.

On receipt of remittance at our Hamilton Office the Token can be sent direct to the recipient together with a copy of our current Catalog, if so required.

Heiloo, Holland, January 1952.
our eighty-second year

We take this opportunity to inform our many friends and customers in the U.S.A. that we moved our Office from Chicago to

188 Asbury Street,
Hamilton, Mass.

We shall be able to handle and execute your orders more rapidly and even more satisfactorily now, than in the past, as being located near an Atlantic Port is one of the greatest shipping advantages.

We feel it is our duty and definite obligation to our customers, not only to supply the very best bulbs available, but also to give them only the best and quickest service possible and we are now in a position to do just that.

However, we cannot recommend strongly enough, that you send your orders in early, in order to avoid disappointment of depleted stocks etc.

We have again added many varieties to our collection of Gladioli, which can now be considered as the most up to date from Europe. It is pleasing to inform you that we have large quantities of fine, clean, healthy and superior bulbs waiting for your orders which we guarantee to handle promptly and in a satisfactory manner.

We sincerely hope our friends and clients will appreciate our efforts in trying to maintain a price stability and we feel confident that you will make advantage of these moderate quotations for the better bulbs and varieties.

We wish to acknowledge with cordial appreciation your renewed and continued interest in our products and the new suggestions that you offer us from time to time.

Large flowering Gladiolus

The Gladiolus are now greatly favored flowers in the United States of America and need no lengthy description. The improved strain of these magnificent flowers produces enormous spikes of very large and strikingly colored blooms of enchanting beauty. They have a very commanding appearance in borders, in groups among shrubs where they remain in bloom for a considerable time, while they are also greatly praised as cut flowers for bouquets and vases.

We draw special attention to our magnificent collection of Novelties and outstanding varieties of recent introduction. Many have been tested at Squire Valleevue Test Gardens at Cleveland and by the West Virginian Gladioli Society Committee and we recorded where possible the results of these important trials. The assortments offered in this catalog hold promise of many interesting surprises.

Culture: plant your Gladioli 3 to 4 inches deep and 5 to 6 inches apart in a well drained and good garden soil from the beginning of March at intervals until the middle of May, in order to have flowers in succession from July until early autumn. Do not add fresh manure. Gladioli like a sunny position and it is advisable to change the location of your Glad-plantings as often as possible.

The prices quoted are for Large and Jumbo bulbs.

Thomas E. Dewey (2), very dark carmine-red with a velvet-red sheen and small white mark on lower petals; this exquisite variety produces an ideal straight stem with 6 to 8 flowers open at a time; a Gladiolus of special merit.

80 cts. per doz.; \$ 5.50 per 100

TIVOLI (2), another immense delicate soft pink, having unusual large wide-open florets, which are beautifully displayed on an erect stem and make a splendid truss of erect carriage; a noble flower.

85 cts. per doz.; \$ 6.00 per 100

TOREADOR (2), color is of a very rich tone of deep red, with a charming spike of 6 to 8 wide open florets on a strong and straight stem. Will be much admired as a garden plant and as a cutflower.

\$ 1.00 per doz.; \$ 7.00 per 100

TORSO (2), this was in the past season again the largest flower out in our Nursery, it is a lovely warm vermilion-red with 10 to 12 well formed wide expanded flowers out at a time and which are closely arranged on a tall upright stem, making it a colossal spike of breath taking beauty. Recommended for exhibition and for cutting, an outstanding variety. A.M., B.G.S. 1950.

\$ 1.00 per doz.; \$ 7.00 per 100

Tyndal (2), fine blooms of a distinct purple-red with a deep red sheen. An elegant variety with frilled petals, 6 to 8 open flowers are gracefully arranged on the stem and form a nice tall spike. Lovely garden plant, very attractive as a cutflower.

85 cts. per doz.; \$ 6.00 per 100

UHU (2), a beautiful smoky, the color is a combination of rose and amber with a tinge of mauve and shading to pale-yellow down the throat, a very fine Gladiolus for growing in the border along with other varieties.

80 cts. per doz.; \$ 5.50 per 100

UNCLE TOM (1), a grand variety of exceptionally appearance, rich dark red with brownish sheen, 6 to 8 open florets on a tall and strong stem. As a bedder it stands alone and produces a gorgeous effect.

80 cts. per doz.; \$ 5.50 per 100

VELVET DREAM (2), a very remarkable and outstanding Gladiolus, the color being sombre purple-blue with velvet sheen; 6 to 8 flowers open at a time, are gracefully arranged along the straight stem. A Gladiolus of particular beauty and effectful when placed amongst soft pinky or yellow flowers. Rated B (Good) in U.S.A. 1950.

\$ 1.25 per doz.; \$ 9.00 per 100

VINCENT VAN GOGH (1), a bright salmon-scarlet with a suggestion of orange on reflexes, producing a tall well-formed spike with many florets open at a time, a flower of exceptional and unequalled beauty.

\$ 1.00 per doz.; \$ 7.00 per 100

White Virgin (2), pure white flowers of lovely shape, borne on a tall and straight stem and of wonderful durability. A perfect beauty in the garden, looking particularly attractive amongst evergreens.

80 cts. per doz.; \$ 5.50 per 100

YELLOW SPECIAL (2), a very rich tone of sunflower-yellow with a shadow of soft apricot. Large perfect florets of exceptional lasting quality and nicely displayed on a strong stem. Strikingly effective for bedding, most showy in the border. A small flowering variety.

\$ 1.15 per doz.; \$ 8.00 per 100

Acidanthera Murielae

(Abyssinian Wildflower)

A richly scented flower that has all the characteristics of the Gladiolus family, though the silver-white florets are of quite a different habit and show in the centre a large deep maroon-purple blotch.

They grow to a height of 2 to 3 feet and are of an extremely graceful appearance. During the winter the corms of the *Acidanthera Murielae* require to be kept in a warm, dry place.

Plant after 1st of April 3 inches deep and 5 inches apart, they take a long time to develop and do not flower much before September.

Acidanthera Murielae. 85 cts. per doz.; \$ 6.00 per 100

Royal Dutch Amaryllis (*Hippeastrum*)

The Amaryllis produces huge lily-like flowers and with their unique beauty and grace they give immense pleasure and satisfaction. The three or four funnel-shaped florets are placed on the top of a tall solid stalk and grow about eight to ten inches wide at mouth. This genus has several qualities combined and its shades are most exquisite and lovely.

The Ameryllis can be had quite easily in bloom when placed in warm spot in the living-room with normal indoor temperature. Remember, the base of the bulb must be kept warm to stimulate the developement of the roots.

Choice seedlings mixture, these are bound to give entire satisfaction on account of its large blooms of breath taking beauty, the shades being delightful. They deserve a much larger popularity and to encourage their cultivation, they are offered at a special price. Large bulbs. **\$ 3.00 each; \$ 30.00 per dozen.**

Anemones

They excel in richness, being of all shades and colors and can be had in bloom from early Spring till July, if planted in succession from October to April. They flourish in any garden soil and should be planted four to six inches apart and one or two inches deep. The roots should always be kept in a perfectly dry place before planting as they are extremely sensitive to dampness.

St. Brigid, (Semi-Double), we offer a splendid mixture comprising a great many rich colors and very pleasing shades, this lovely Anemone cannot be too highly recommended and should be planted in generous quantities.

45 cts. per doz.; \$ 3.00 per 100

St. Brigid Lord Lieutenant, a fine semi-double mauve flower.

St. Brigid The Admiral, deep pink semi-double.

St. Brigid The Governor, brilliant scarlet, semi-double.

} **50 cts. per doz.**
} **\$ 3.50 per 100**

De Caen (single) (The Giant French or Poppy-flowered Anemone), we strongly recommend this beautiful vigorous growing race of Single Anemones, which produces handsome and large saucershaped flowers; should be planted in generous quantities from November onwards with intervals until late Spring.

50 cts. per doz.; \$ 3.50 per 100

Calla Lily (*Richardia*)

These have gained great popularity and are indeed magnificent flowers for decorative purposes and they can be easily grown in pots.

Elliottiana, beautiful dark golden-yellow flowers, a very striking plant for the greenhouse or conservatory, strongly recommended. **60 cts. each**

Superb Begonias (Tuberous Rooted)

(Shade-loving)

This Genus deserves attention on account of its great value for planting in shady positions of the garden. From early July and onwards, these so often lost spots will be brightened by the Tuberous Begonias with their huge flowers of magnificent bright and pastel colors.

Culture: The best method is to start them in a cold frame. Plant in rich soil. Good drainage is essential and water cautiously until plants have shown considerable growth, then increase supply. When a little hardened off and when night-frosts are no longer expected, they should be planted out in the garden. Begonias can be planted either single or in beds, one foot apart.

LARGE-FLOWERED DOUBLE BEGONIAS

Separate colors — crimson, orange, pink, salmon, scarlet,
white or yellow each separate color \$ 1.90 per doz.; \$ 14.00 per 100

Hyacinthus Candicans (Galtonia)

This plant deserves to be more extensively cultivated. It is a very handsome decorative plant for grouping in the flower border or in lawns, it is also a good pot plant for the conservatory. Producing a spike of 30 to 40 white bell-shaped flowers, it is also very effective when associated with scarlet Gladioli. Plant in Spring in ordinary rich, well-drained soil 6 inches deep and 8 inches apart.

HYACINTHUS CANDICANS (Galtonia), a strong growing species, bearing pure white bells arranged on a thick stem. 80 cts. per doz.; \$ 6.00 per 100

Lilies

All High Quality Dutch Grown Bulbs

Of all the classes of plants capable of being cultivated outdoors, the Lily stands pre-eminent for beauty, grace and color for many years, when left undisturbed.

Culture: Lilies must not be allowed to dry out, but should be planted immediately on arrival at a depth of three times the height of the bulb in a well drained, light loamy soil. No Lilies will thrive in full shade. After the bulbs have set, they should be covered with one inch of soil, on top of which another layer of composted old cow manure should find its place. The first season after planting Lilies do not flower profusely, but once established, they increase in richness and display. Cutting down the dead stems in autumn is essential for good results the following year and add a fresh top-dressing in early spring.

BROWNII, this superb Lily is among the loveliest of the trumpet-flowered group, interior white, exterior tinged with chocolate-brown; strong stems clothed with handsome glossy foliage, each bearing from 2 to 3 trumpet shaped flowers of great beauty; flowers in early July, height 3 to 4 ft.

\$ 2.00 each

CREELMAN HYBRIDS, a much improved strain of *L. Regale*, producing very large pure white trumpet shaped flowers with a faint tinge of purple on outside of petals, a magnificent garden plant; stem rooting, flowering July-August.

MARTAGON ALBUM, the pure white sport of *L. Martagon* and no doubt one of the most beautiful Lilies, height 4 ft.; June; limited stock.

\$ 1.40 each; \$ 14.00 per doz.

Maximowiczii, a splendid Lily of vigorous growth with many richly colored orange-scarlet reflexed flowers, spotted maroon, similar to *Lily Tigrinum* but has no bulbiferous stems, plant in loam in partial shade, flowering in August; height 4 ft.

25 cts. each; \$ 2.50 per doz.

Maxwill, (*L. Maximowiczii* X *L. Willmottiae*), an exceedingly fine hybrid Lily and a first-rate garden Lily, the 5 ft. stems are stiff and straight with luxuriant foliage, bearing up to 30 large brilliant red recurving flowers, plant 8 inches deep in partial shade, flowering late July.

25 cts. each; \$ 2.50 per doz.

ORANGE TRIUMPH, (*L. Croceum* X *Umbellatum*), a beautiful introduction producing on tall erect stems large clusters with as many as 10 to 12 upright bell-shaped flowers of a very pleasing vivid-orange color, fine garden Lily, flowering in June, height 3 ft.

35 cts. each; \$ 3.50 per doz.

Pardalinum Giganteum, superior variety of *L. Pardalinum*. Stems 5 to 8 feet tall under ordinary culture, with luxuriant foliage arranged in whirls around the stem. Flowers are recurved, base of each petal is chrome-yellow spotted maroon with outer portion deep scarlet-red.

60 cts. each; \$ 6.00 per doz.

REGALE, this is one of the best known of all Lilies, huge and easy to grow, its strong stems are crowned with large funnel-shaped flowers, variable wine-colored exterior, pure white interior with yellow shading in the throat and golden-yellow anthers; during the evening and early mornings they are very sweetly scented, a Royal Lily of great merit, plant 8 inches deep in a sunny position, strongly recommended for the garden, flowering in July, 4 to 5 ft. high.
